
La carne de caza (La carne de caza mayor)

04, agosto

El sector de la carne de caza ha experimentado un crecimiento importante.

Además de su origen totalmente natural, las carnes de caza ofrecen ventajas significativas sobre la carne roja tradicional: son perceptiblemente más bajas en grasa, calorías y colesterol que la carne de vaca o de cerdo, y en algunos casos, de la carne blanca como la de pollo.

Sierra Trade pone a disposición del cliente **carne de caza mayor**: ciervo, jabalí, muflón, corzo y gamo.

These people are treated as [professional book formatting services](#) if they were animals, sheltered, nourished, and shielded from reality.
